FAILENN *ASELTA*

Design Engineer who is exceptional in visual design and technical applications.
New York, New York | +1 (203) 451-9512 | failennaselta@gmail.com | failennaselta.com

SELECTED PROJECTS

BUDDY | *failennaselta.com/buddy*
FastAPI · Whisper · GPT-4o · Fal.ai · Mermaid.js · React · Raspberry Pi · Linux · 3D printing
• Built an AI-powered handheld device generating real-time visuals of live conversation
• Developed a Python/FastAPI and React with Whisper to GPT-4o to Fal.ai or Mermaid.js pipeline
• Deployed locally on a Raspberry Pi running Linux with a 3D-printed enclosure made in Rhino

Eidolon | *failennaselta.com/eidolon*
Google AI Studio · GCP · Figma · UX Research · Wireframing · Prototyping
• Exploring how generative AI can create spatial narratives using Google AI Studio and GCP
• Mapped dual personas across ends of the AI trust spectrum to identify divergent cognitive paths
• Delivered a Figma prototype with agent state UI and an ethical framework addressing transparency

N1ghtterrors | *failennaselta.com/nightterrors*
Node.js · HTML/CSS/JS · User Research · Vercel
• Built a clothing and media brand end-to-end, managing social media, sales, and digital presence
• Conducted user research to inform brand identity; built full digital presence on a Node.js stack

EXPERIENCE

Jan '26 - Present **FAILED.** | *Founder* ***Weston, CT***
• Commissioned to design a community pavilion; led client meetings and town approvals from concept through construction
• Developed a "material hacking" construction logic reducing material consumption by 80% while preserving design intent
• Reduced total project cost by 40% through direct collaboration with laborers and fabricators
• Generated clients through direct outreach and live skill demonstrations; modeled in Rhino, Grasshopper, V-Ray, and Illustrator

July '25 - Jan '26 **ReGenerating Education** | *Junior Design Consultant* ***Remote***
• Collaborated with a multidisciplinary team to challenge traditional pedagogical models, translating abstract educational theory into Construction Documents (CDs) and buildable spatial strategies
• Synthesized user research into high-fidelity design narratives, utilizing renderings and diagrams to communicate student-centric needs
• Refined high-concept architectural interventions, iterating on massing and layout to balance experimental programmatic goals with spatial reality.

Sept '24 - July '25 **Cloud9** | *Junior Co-Design Lead* ***Blacksburg, VA***
• Co-led net-zero installation for 2025 Venice Biennale - Top 11 Curatorial Event; delivered ahead of schedule and under budget
• Directed 25-person multidisciplinary team spanning landscape architecture, engineering, and computer science
• Co-authored parametric Grasshopper script with manufacturer to precisely model ETFE beams and communicate fabrication tolerances
• Secured $100K partnership via narrative pitch to USM CEO; managed Grasshopper modeling through on-site fabrication

Summer '24 **CLB Architects** | *Architecture Intern* ***Jackson, WY***
• Designed Grasshopper-driven interior elements; reduced fabrication costs 20%; documentation published on ArchDaily
• Built pitch decks and narrative visualization assets to secure new commissions alongside firm principals

Fall '23 **JAHN** | *Academic Intern* ***Chicago, IL***
• Built and designed a custom WordPress theme for JAHN, strict typographic system, minimal UI, published alongside working on Thompson Center
• Developed 3D models and printed prototypes for Google's Thompson Center renovation

SKILLS

Code: JavaScript, TypeScript, React, HTML5, CSS3, Python, FastAPI, Node.js, Grasshopper, Next.js, Vercel
Design: Figma, UX/UI, Rhino 8, V-ray, Lumion, Enscape, Keyshot, Adobe Creative Suites, Blender, Maya
AI / Cloud: Google AI Studio, GCP, OpenAI (Whisper, GPT-4o), Fal.ai, Cursor, generative image models
Hardware / Fab: Raspberry Pi, Linux, 3D printing (PLA/Resin), CNC, laser cutting, on-site assembly

AWARDS

ECC Awards 2025 - Shortlisted
Top 11 Curatorial Event - Venice Biennale 2025

EDUCATION

2019-2025 **Virginia Tech** ***Blacksburg, VA***
B.Arch, **Minor**: Philosophy, Political Science and Economics AIAS Chapter President
Exchange - USI Università della Svizzera italiana ***Mendrisio, CH***
